ASSISTANT PROFESSOR (TENURE-TRACK)

The Ostrow School of Dentistry of USC seeks outstanding candidates for a tenure-track position at the rank of assistant or associate professor to conduct cutting-edge research in the area of infectious diseases. The selected candidate(s) will have a joint appointment in the Division of Biomedical Sciences and the Division of Periodontology, Diagnostic Sciences, and Dental Hygiene.

Successful candidates will be expected to establish an independent research program, obtain extramural research funding, publish in high impact journals, participate in teaching at the pre- and postdoctoral levels and participate in administrative duties consistent with the University-wide requirements for performance in scholarship, teaching and service in the tenure track.

Preference will be given to candidates with dual degrees, where one degree is a professional doctoral level degree (DDS, DMD, DVM, MD or equivalent) and the other, a PhD (or equivalent) in a relevant field of biomedical science (immunology, microbiology, biofilms, genomics, systems biology, pathobiology, pathology). Candidates with only one advanced degree will be considered if their professional profile documents a similar range of experience. Special consideration will be given to candidates who have completed a postgraduate program accredited by the Commission on Dental Accreditation (CODA) of the American Dental Association on periodontics. Candidates with translational research interest are strongly encouraged to apply.

Interested applicants should submit a cover letter, complete curriculum vitae, statement of current and future research plans, selected recent publications, and arrange to have three letters of reference sent to:

Dr. Malcolm Snead, Chair
Division of Biomedical Sciences
Ostrow School of Dentistry of USC
c/o Ms. Lynn Matsumoto
925 West 34th Street, DEN 4368
Los Angeles, CA 90089
lmatsumo@usc.edu
